

<p>Monday</p> <p>PE with Joe on YouTube</p>	<p>Session 1</p>	<p>Handwriting practise-please remind children of the letters we have practised and ensure children are correctly forming them</p>	<p>Snack time 10-10.15</p>	<p>Outside activity 10.15-10.45</p>	<p>Session 2</p>	<p>Daily phonics practice</p>	<p>Lunch time</p>	<p>Do a jigsaw</p>	<p>Session 3</p>	<p>Session 4</p>
	<p>Literacy I can use my sounds to spell. Read or watch 'Superworm' by Julia Donaldson and Axel Scheffler https://www.youtube.com/watch?v=7Jnk3XApKBg In the story at the beginning Superworm saved the toad. What super thing would your super worm be good at? Write a sentence on the wormy writing frame attached about it e.g. Superworm jumped up and saved my cat. Remember to use finger spaces, capital letters and full stops.</p>				<p>Maths I can continue and create a pattern. Look at the mini beast patterns attached-can you continue the patterns correctly? Can you invent your own mini beast patterns? Or how about making a repeating pattern using different lengths of super worms rather than different mini beasts?</p>				<p>Understanding The World. Make your own worm hotel! Where can you find some worms in the garden? How do they move? Can you make a hotel for them to live in? Follow the attached instructions on how to make a worm hotel. Why do you need to put dark paper around the jar? Have you got nice layers? What happens to the sand and soil after a few days? Have you still got layers? What have the worms done?</p>	<p>Story time https://www.storylineonline.net/</p>

Literacy

I can use my imagination to invent.

How would you rescue Superworm? How did his friends help him in the story? What would you do? Draw your rescue plan in your book.

Maths

I can count to and back from 20.

Superworm is super Long! But how long is he? If we draw some worms like this;

you can see they look like the number lines we use at school. Have a go at completing the attached 'worm number lines' that start at different numbers. Can you draw some of your own worm number lines? Now have a go at counting back on some worm number lines on the second sheet.

Adults the worm number lines do not print well it may be best if you draw some.

Expressive Arts

We are going to continue making symmetrical patterns but this time they are 'wormy'!

You will need: Paper, paint in different colours and some string/wool.

Fold your paper in half to see the middle line. Open it back up. Cut your lengths of string to different lengths - making sure there is enough for you to keep hold of it when in between the paper. Take a piece of string, dunk it in the paint leaving an end free of paint to hold on to.

Next lay the paint covered string on one side of the folded paper in any pattern, leaving the clean end of the string out.

Then fold the paper back together and put your hand on the paper so you can feel the string through the paper and begin pulling the string out moving it around the edges of the paper. It's really fun to have more than one string with different colours. Pull the strings out and open up the paper and ta da! A super creation!

**Story time**

Wednesday		<p>Literacy I can read tricky words These are all the phase 3 tricky words; he, she, we, me, be, was, you, they, all, are my, her. Can you find them all on the wordsearch attached? If you would like to I also attach a sheet to practise spelling the words on once you have found them.</p>			<p>Maths I can count to 20 Superworm has many abilities and many moves. How many super moves can you do in 1 minute? How many skips can you do in 1 minute? Can a grown up time you? Check your counting! Can you hula hoop or hop for 1 minute? How many can you do? What other superworm moves can you count? Maybe you could find out your best move and the one you can do most of in one minute.</p>				<p>Project time/PPA time with Mr Oriss</p>	<p>Story time</p>

Thursday

Literacy

I can form letters correctly.

Worm starts with a 'w' which is a zigzag letter. Have a go at practising these letters on the sheet attached and then on a piece of paper. How many words can you have a go writing that begin with 'w'?

Maths

I can compare and order by length.

Get together your own collection of worms and see if you can cut them to different lengths. Of course we are not going to cut real worms! Grown ups cook some spaghetti until almost cooked and then rinse under cold water. You can add food colouring to make them any colour you want if you want fancy worms! You now have ready made worms to cut. (You can use string, dough or wool if you don't have spaghetti.) Can you order them in length? What is your longest worm as long as in your house? What is your shortest worm as long as? Attached are some more worms for you to cut out and order. When you have finished can you count many leaves long the shortest and longest ones are? Can you draw a worm that is longer than the longest one? How many leaves is it?

Understanding the World/ Expressive Arts

Worm Dance Worms come to the surface when they hear the rain on the ground. Sometimes noises convince them it is raining and to come up. Can you make up your own rain dance to make the worms appear? Some cultures do dances to make it rain as well! You can look these up on the internet to get some ideas. Could you put your dance to music? Or use your favourite tune? Think about noisy moves like rain to get those worms to show themselves! It might look like this;

Story time

Friday		<p>Literacy I can use sounds to read and spell. Attached are two 'I spy and read' sheets. The first is about ch,sh,th and ng. The second is about ai,ee,igh and oa. Please either choose one or both sheets to complete.</p>			<p>Maths I can compare and order by length Worm Race A game to make the longest worm! You will need two people and some long wool/thread or string. Cut your string into worm sized pieces (not too short) Hide worms around the house. The game 3 2 1 go Set off hunting for bits of worm and come back to the same place. Tie your pieces together. The winner is the person with the longest worm! To make it harder use 2 colours of string and you have to find your own colour. If you struggle to tie knots use some sticky tape!</p>			<p>RE Read or watch the story of 'Jonah and the Whale' https://www.youtube.com/watch?v=WOSadLyqshg Jonah was inside the whale for 3 days-how did he feel do you think? What did he do? It might feel like a long time that we have been inside or away from our friends and family-don't forget you can ask God to help you too just like Jonah did.</p>	<p>Story time</p>
