Welcome to Emerald Class Phonics Workshop

Aims

- To support your understanding of phonics in Year 1
- To share some of the terminology and teaching practices we use with the children
- Guidance on how to help your child with their reading and spelling at home
- To share a short phonics activity with your child

New research on the benefit s of reading (beyond academic success)

- Children who read are more likely to be happier/healthier
- Children who read are more likely to experience better mental well-being and self-esteem
- Children who read are more likely to develop empathy and creativity

We need to read to and read with children and make time to talk about books.

(Book Trust March '23)

Phonics consists of:

- Identifying sounds in spoken words
- Blending phonemes (sounds) into words
- Segmenting words into phonemes for spelling
- Helping children to develop good reading and spelling skills

In year 1 the teaching of phonics focuses on Phase 4 and 5 sounds (phonemes) so the children become more fluent with reading and writing them. Often sounds will be represented by different spelling patterns (graphemes)

```
/ar/ as in car /ar/ as in father /ou/ as in owl /ou/ as in cloud /igh/ as in pie
```

Children learn to code break

How to say the sounds

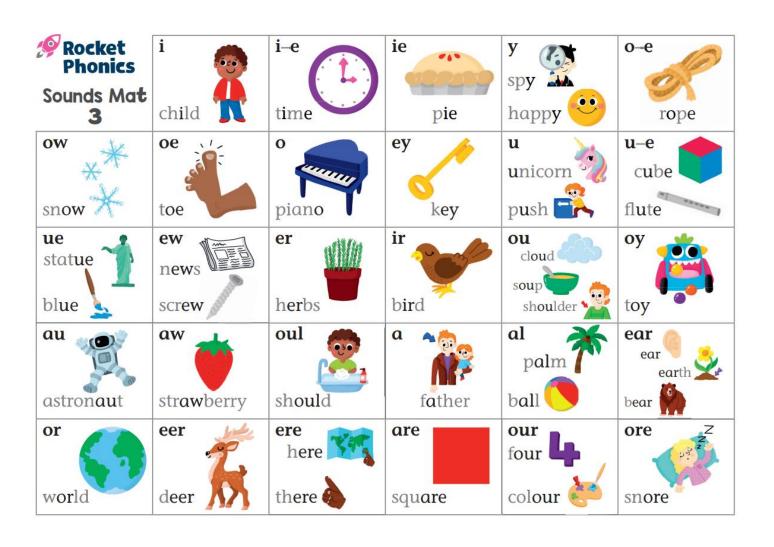

- Saying the sounds correctly with your child is extremely important.
- The way we say a sound may well be different from when you were at school.
- We say the shortest form of the sounds. Sounds should be pronounced softly and in a clipped, short manner. Not with a 'schwar'
- Otherwise blending or spelling cat
 e.g. cur- a -tur becomes very tricky!

So it's c - a - t

We use a systematic synthetic scheme called 'Rocket Phonics'.

Graphemes we teach in Year 1

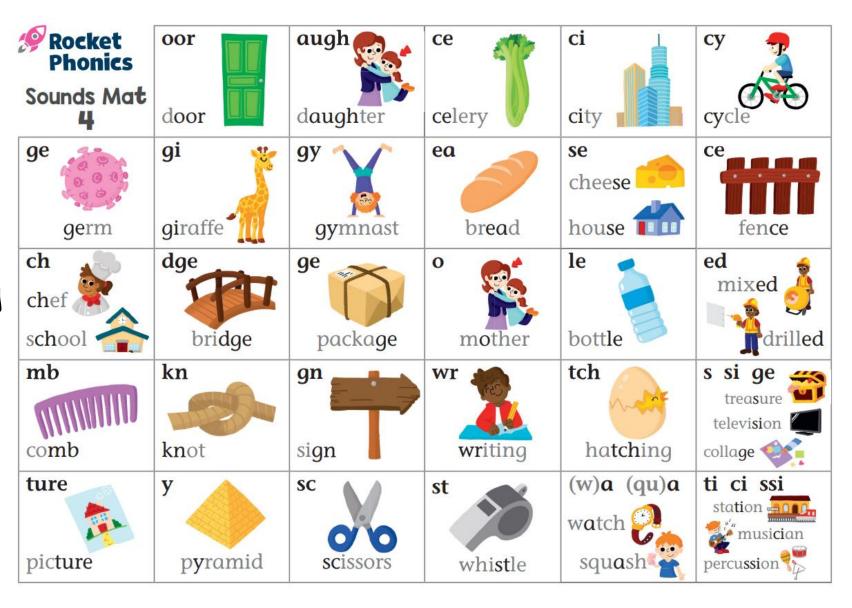

Rocket phonics uses a mnemonic system to help children to remember letter-sound correspondences. E.g. 'i as in child'

Graphemes we teach in Year 1

As we teach these graphemes <u>children develop</u> their own library of the phonemes – sounds in words

Blending for reading

Children become code breakers and are able to decode unfamiliar words First, children need to recognise the graphemes* in a written word e.g. child

Then children need to blend them in the order in which they are written to pronounce the word 'child'.

*A grapheme - These are the letters that represent the phoneme (sound).

A grapheme you see

Segmenting for spelling

 To spell a word, we need to be able to identify the individual sounds in the spoken word
 E.g. rain → r-ai-n

Phonics Fingers

We use the left hand (palm facing) to count sounds from the thumb across the fingers to work out how many sounds can be heard in a word before attempting to write it.

Segmenting activity

Using phonics fingers, can you say how many phonemes are in each word?

- cat
- dress
- sprint

Phoneme = sound
A phoneme you hear

How many phonemes are in each word?

•
$$cat = c - a - t$$

• sprint =
$$s - p - r - i - n - t = 6$$
 phonemes

Phoneme = sound
A phoneme you hear

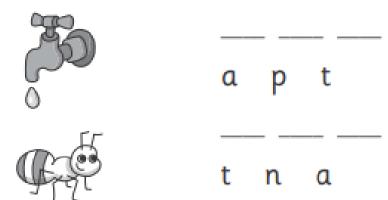

In rocket phonics we use:

- Phonics fingers
- Phonics dashes

Segmenting practice: Look and write the words.

Common Exception Words

Alongside the teaching of phonics, we cover Common Exception Words (CEWs). They are taught as whole words and need to be recognised by sight.

Many of these words are not phonically decodable

e.g. was, the, I

·Some are 'tricky' to start with but will become decodable once they have learned the harder GPCs (Grapheme Phoneme Correspondences)

e.g. out, there

some		one		said	come
do so		were	when		
ha	ive	there		out	like
lit	little what		oh	their	
peo	ple	Mr	Mrs	looked	called

Year 1 Common Exception Words

asked	could	water	where	
who again		thought	through	
many	laughed	because	any	
eyes	friends	once	please	

Something that
often holds a child
back from
becoming a fluent
reader, is their
common exception
words recognition.
Please help your
child become
confident at
reading all of
these.

How we teach: Daily Phonics

15 minutes phonics input (Revise, teach, practise and apply)

15 minutes Pupil Practice Booklet

15 minutes paired reading

Extra phonics practice to consolidate and revise

Letter formation is taught at the same time when introducing each grapheme

Reading at home

Decoding, fluency and comprehension

- All children will receive a reading book, access to several ebooks per half term and a library book
- The reading book needs to be read at home (many times) and returned to school on a Friday morning. Please ask your child to read and re-read the story over several days to develop their fluency.
- Children read daily at school with a partner and within the week with a TA/CT
- We suggest this pattern:
 - 1^{st} reading Look at the pictures and talk about what is happening
 - 2nd reading Ask your child to read the book concentrating on the phonics
 - 3rd reading Focus on using a storyteller voice and developing fluency for the words read.
 - 4th reading Ask your child questions about the story to develop their comprehension.

How can I help my child at home?

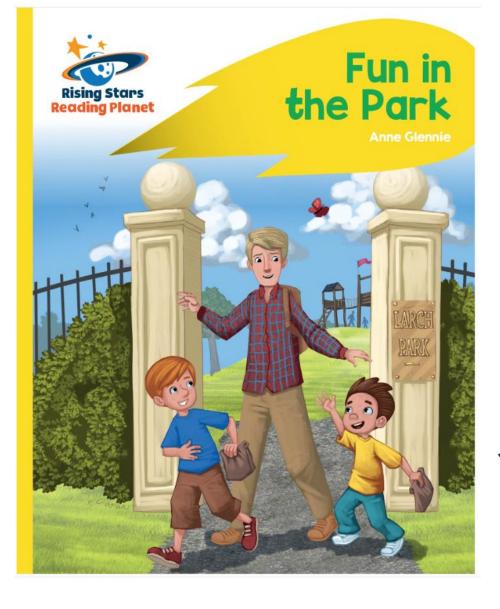

smart fork fur COW park now Rocket Phonics: I can blend words Yellow

'I can blend' sheets will be sent home weekly. Please help your child to read and write the words to help consolidate the learning at home.

Once they have read them and are confident cover them and then dictate one.

Practise oral blending e.g. s-m-ar-t

I went to the farm and I saw a c-o-w (one syllable words)

Reading Planet Notes

In this book

Your child will practise these key sounds:

ar (as in park)

ur (as in further)

OW (as in down)

ear (as in tears)

er (as in scatter)

Your child may need help with these words:

like come

said there

Ready-to-read activity

Say the title of the story (Fun in the Park)
using different intonation and ask
your child to copy you. Say it with
a happy voice, a tired voice, a cross voice
and an excited voice.

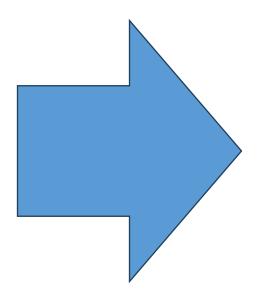

Before reading

Before you begin, talk about the front cover and blurb together. Ask your child: What type of fun do you think the characters might have in the park?

While reading

- After reading page 4, ask your child why they think Sam looks sad. Discuss what Carl said and how it made Sam feel.
- ★ If your child is tired or seems stressed, don't force them to keep reading. Ask them if they would like to share the reading, page-by-page, or stop for now and come back to the book later.
- Show your child how to focus by pointing their finger under each sound in a word and helping them to blend the sounds.

After reading, encourage your child to talk about the story. You'll find ideas for questions and activities at the back of this book.

Talk about the story

Ask your child these questions:

- 1 Who took Sam and Carl to the park?
- 2 What was the first thing they did in the park?
- 3 How did Sam feel when Carl kept winning?
- 4 Why do you think Carl won the races?
- 5 What do you like to do at the park?
- 6 Have you ever won a race? How did you feel?

Can your child retell the story using their own words?

Please record in your child's home school link book what they have read and do note if they are finding something tricky.

i.e. 1^{st} read – Joe looked at the pictures and was able to oral blend to spot different things $\ \odot$

$$2^{nd}$$
 read - pat $\sqrt{}$ dot $\sqrt{}$ Joe needed help with not

3rd read - Joe re-read the story well and was able to sight read dot.

Children are able to look back in their book if they need to find the answer!

Any questions?

Children will now join us and bring with them a 'roll and read' phonics game. Phonics should be fun!

Phase 3 Roll and Read

•	jug	load	might	oil	jet
•	kerb	king	jam	germ	loaf
••	fight	loin	rang	foil	song
• •	boil	fern	thigh	verb	sigh
•••	jog	coin	Jill	oak	thing
•••	coat	adder	foal	bang	high

- 1. Take it in turns to roll a dice and read a word
- 2. Roll the dice, read a word then put it into a sentence (can be a silly sentence)
- 3. Write a sentence with that word in

Ohio State University researchers found that young children whose parents frequently read to them could enter kindergarten having heard an estimated 1.4 million more words than children who were rarely or never read to (July 2019).

'Reading and writing cannot be separated Reading is breathing in Writing is breathing out'

Thank you for coming today.

Your time and support is invaluable to helping your child succeed.
